

# WE ARE

HARNESSING THE STRENGTH OF  
LGBT FAMILIES & THEIR ALLIES

# YOUR

# FAMILY

Recent events locally and nationally have highlighted the lack of support for LGBT families. The Bronx is home to more lesbian, gay, bisexual and transgender families than anywhere else in NYC. But homophobia and stigma levels remain high, and many of our LGBT brothers and sisters struggle to receive the services their families need and are entitled to. Join community members, advocates and elected officials as we discuss how to make the Bronx a place where all families are represented and respected.
