Cc: Tom Fiegl <Tom Fiegl <[REDACTED]>>; Matt Crider <Matt Crider <[REDACTED]>>;

Good Morning Tony,

As you are aware our district has been working with Matt Crider from ECC Technologies consistently to develop our smart school plan and application. Have you spoken with him recently for an update? I very much like the idea of the guy from France advising our district also on the placement of cameras. I have cc'd Matt on this e-mail to get an update for you and to arrange for this visit.

Debbie

Please also change Michelle's and Tim's e-mail address. You are using an old wnyric address that is no longer valid or working.

We'll talk soon.

Good morning! I hope all is well!

I just wanted to follow to check on the status of where your district is in the process of moving forward and to also update you on a couple of items.

One of our other partner districts is moving forward with the acquisition and installation of the technology. As discussed before, this is exciting as it will make them and others in our Western New York area, the first schools in the world with this state of the art technology to enhance safety and security for students, staff and visitors to our schools.

As part of this process, the district is utilizing SSBA money to fund the acquisition of new cameras which will work extremely efficiently with the technology. Along those lines, the developers have volunteered to send a member of their technical team from France to assist in the design and layout of camera placement to ensure maximum efficiency and benefit.

Please let me know if you have any questions and what your thoughts are in terms of the status of LCSD? It would be great if we could coordinate with the SpikeNet team and our other partner district to have them work with your camera installation design team as well?

I look forward to speaking with you soon and discussing how we can work together to make LCSD one of the first school districts in the world with this technology.

Also, I am attaching one of our new information sheets. I would love any feedback you may have about it?

Thanks for being a great partner and for the privilege to be of service!

Tony
