RE: PT-9905281
Increased Highway Safety Through License Plate
Reader Technology Deployment
Effective Date: October 1, 2006

490205-GT-05

Dear Ms. Langer-Smith:

I am pleased to notify you that the Governor's Traffic Safety Committee will fund the above referenced project in the amount of \$700,000. The funding of this project is subject to the regulations set forth by the National Highway Traffic Safety Administration and New York State.

This letter is authorization to initiate project activity and to incur project costs on or after October 1, 2006. We are under Federal requirements to liquidate our funds in a timely manner. State agencies are required to report expenditures as they are being charged to the federal program.

A final report and claim must be submitted to us by October 31, 2007. After this time, unclaimed funds will no longer be reserved for your project.

Thank you for contributing to New York State's successful Highway Safety Program. If you have any questions, please contact the Governor's Traffic Safety Committee at (518) 474-5111.

Sincerely,

Nancy A. Naples

Grant Application Fiscal Year 2007**

HS-1B

Conditions

- The deadline for submitting vouchers is October 31, or be subject to non-reimbursement.
- Activities and items being charged to the grant must be directly related to the approved grant activities.
- Public Information and Education material, products or campaigns developed for this project must have prior GTSC approval. Materials must include the following acknowledgement: "Funded by the National Highway Traffic Safety Administration with a grant from the New York State Governor's Traffic Safety Committee."
- Large commodity orders and equipment must be ordered and received by July 31.
- **Equipment items over \$5,000 per unit, need to have prior written approval from NHTSA.**

Authorizing Signatures (Original signatures must be sent to the GTSC. Please use blue ink.)

I hereby certify to abide by all conditions, cost limits, and federal and state rules for grant administration.

CONDITIONS

- Costs charged to the grant need to be necessary, reasonable and allocable. See Grant Program Guide, p.2.
- Activities and items being charged to the grant must be directly related to the approved project objectives.
- Public Information and Education material, products or campaigns developed for this project must have prior GTSC approval for content and text or be subject to non-reimbursement. Materials must include the following acknowledgement: "Funded by the National Highway Traffic Safety Administration with a grant from the New York State Governor's Traffic Safety Committee."
- Large commodity orders and equipment required to conduct the project activities as described in the approved grant budget must be ordered and received by July 31.
- The deadline for submitting vouchers for reimbursement of project costs is October 31. All allowable costs incurred during the grant year for use during the period of October 1 to September 30, must be claimed on a voucher and submitted to GTSC by October 31. NHTSA will not reimburse late claims. While we do not intend that costs go un-reimbursed, grantees must claim costs promptly or be subject to non-reimbursement. It is strongly suggested that you voucher for your project costs on a quarterly basis. This facilitates the payment process at GTSC and generates a positive cash flow over the course of the grant.

Grant Application Fiscal Year 2007

PROJECT DESCRIPTION (to be completed by the applicant):

All 402 or local grant applications must have a narrative that addresses the following components: Problem Identification, Proposed Solution, Goal Statement and Objectives, Operational Plan and an Evaluation Plan.

Refer to the topic, **PROJECT DESCRIPTION** in the "State Agency and Not-for-Profit Highway Safety Program Guide " instructions for assistance with preparing your narrative.

PROBLEM STATEMENT:

According to statistics provided by the New York State Department of Motor Vehicles (NYSDMV), there are 11.5 million people that have been issued driver's licenses in the State. Nearly, 1.5 million of these people currently have their license suspended or revoked. According to statistics released by the American Association of Motor Vehicle Administrators (AAMVA), nearly 75% of these people continue to drive motor vehicles. In New York that translates into 1.125 million drivers on New York's roadways driving with a suspended or revoked license or no motor vehicle insurance.

In 2005, only 172,996 tickets were issued in New York for unlicensed, revoked or insurance related crimes. As a result, only approximately 10% of the unlicensed or revoked driver's are brought to justice and either fined or incarcerated for these crimes. Some of these individuals believe driving without a valid license or insurance is a victimless crime. If they simply follow the rules of the road they will not be held accountable for their crimes and can continue with life as usual.

PROPOSED SOLUTION

The technology used in a plate reader has improved so that the plate reader can recognize over 1,000 license plates an hour on vehicles as they pass either a portable or stationary unit at vehicle speeds up to 70 miles per hour. The information downloaded into the plate reader from the New York State Police Information Network (NYSPIN) allows a law enforcement officer performing a special detail or routine patrol to detect a motor vehicle driven by an unlicensed and/or revoked operator or any other motor vehicle insurance violation even if the driver of the vehicle has not committed a traffic offense or been involved in a traffic accident. Based on a NYSPIN hit, a police officer can intervene before this driver is involved in a traffic accident or commits another violation that could result in serious injury of an innocent victim.
